

20th November 2008

We would like to draw your attention to one of the lesser known Italian regions, whilst at the same time introducing you to Casa del Vescovo one of many new additions to our 2009 portfolio.

The Marches

The region often takes people by surprise. The unspoiled countryside and the contrast in landscape is a thrill for people who visit The Marches for the first time. You drive from the top of the mountain and will within a few kilometers reach the coast. The coast alternates between beautiful beaches of golden sand, pebble beaches, cliffs and picturesque bays, and inland you travel through a landscape characterized by low hills covered with vineyards, olive groves and woods.

Casa del Vescovo, The Marches

Casa del Vescovo is a fascinating home with ancient origins located just 2 km from the city of Urbino. The complex has undergone several transformations through the years whilst remaining true to the heritage of the building. The home as it appears today is a comfortable luxury residence complete with a large enclosed garden and a beautiful swimming pool.

The Villa sleeps 12 guests and prices start from £172 per person per week based on 12 sharing.
